YOUR PROBLEMS... SOLVED?

Dear RR,

I'm 15 and so is my girlfriend. I messed her around in the beginning as I was talking to a lot of other girls. When she found out she was so mad and she swung at me, aiming for my face repeatedly, Over and over, even though I kept telling her to stop.

She connected with the side of my head and my body, a few times leaving me with many nail scratches. I tried to restrain her and she sunk her teeth into my forearm. I still have the teeth marks/scars 3 weeks later. She was uncontrollable.

Amongst the chaos of me defending myself, I'm pretty sure the back of my hand connected with her face. She threatened to take it further against me if I said anything, as she had a small bruise in the corner of her eye. Since then she has been absolutely normal. If I bring up her actions that night, she changes the subject to what made her angry at me and focuses on that instead. Should this behaviour be ignored as I did upset her to start with set her off?

Dear RR,

I'm 15 and I've been seeing my boyfriend for 6 months and he asked me to send a photo of me topless but my friends have told me not to incase he shares it.

He's promised me this would never happen because he loves me and he just wants to have a photo of me to look at when he's lonely...should I send him one???

Dear RR,

Hey! I'm 14 and I have met this really nice lad:)

However, 3 weeks into being with him... he cheated on me with his best girl mate. I was heartbroken but I agreed to get back with him 2 hours later...

I really didn't trust him when we went away to separate holiday places...

I got back from holiday and I'm now back with him. I love I'm loads and I don't want to lose him... I'm paranoid he will do it again... He has promised he will never do it again...

I've been cheated on 3 times by 2 lads...

IF YOU WAS ME WOULD YOU TRUST HIM OR FINISH HIM AND MOVE ON

Please help!

Love,

yasxxxx

Dear RR,

Hi, I hope you can help me as I don't know who I can ask about this!

I really like my girlfriend. We've been together nearly 6 weeks now. It was so good in the beginning. We would spend all our time together. It was the summer holidays so we had lots of spare time!

Now I have to focus on my education. It doesn't seem to me that she's that bothered about her exams. She's constantly messaging me on social media and gets really angry when she thinks I'm talking to other girls. She goes crazy at me if girls like or comment on my posts.

The other day I caught her going through my phone. How can I tell her it makes me uncomfortable without hurting her feelings?
